LOG ACTIVITY + HISTORY

- Log preset daily activities 
- SRE: Validated inputs 
- Utilizes  for fast, quick, and inexpensive deployment
 - Integrated into Dashboard and Achievements

The screenshot shows a web application interface with a dark blue background. At the top, there is a navigation bar with links: Landing, Dashboard, Log Activity, Log History, and Achievements. The main content area features a large, semi-transparent blue modal box titled "Log Activity". Inside the modal, there is a form with the following elements:

- A label "Choose an option:" above a dropdown menu with the text "--Please choose an option--".
- A date picker input field with the text "Click to select a date".
- A "Submit" button at the bottom.

LOG ACTIVITY + HISTORY

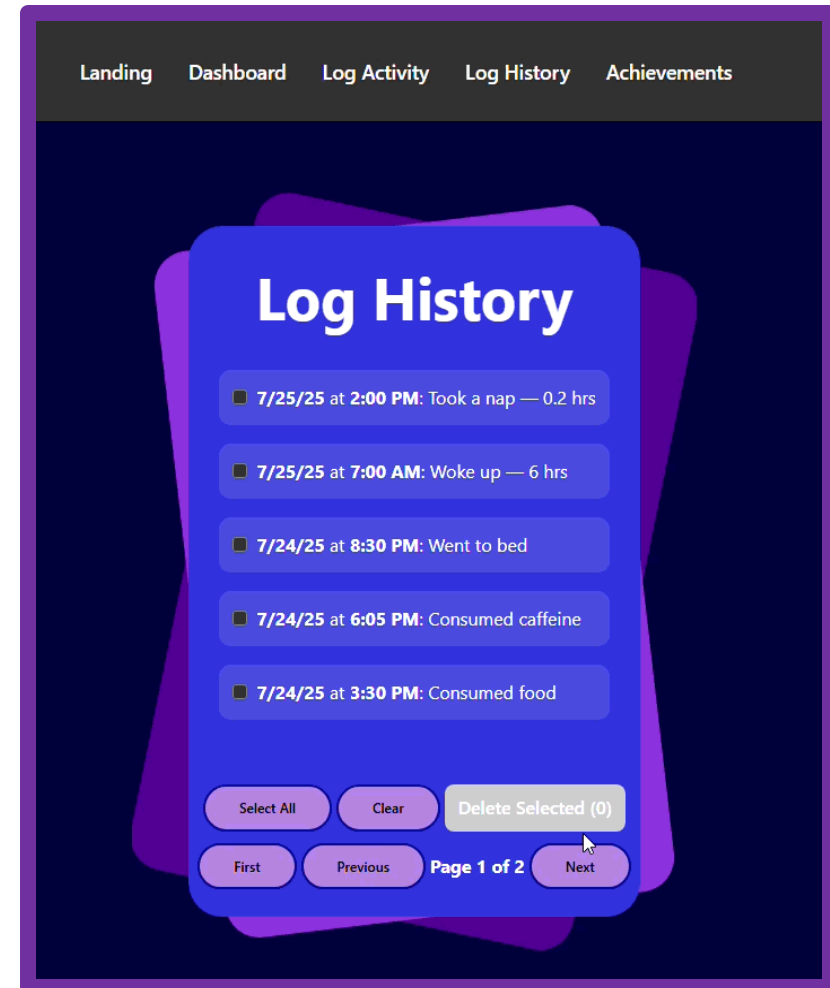

- Connected from Log Activity 
- Keep track of your routine + time

Challenges

- 1) Learning React and designing UI/UX
- 2) Usability and Data Extraction
- 3) Data Scalability and Storage Costs

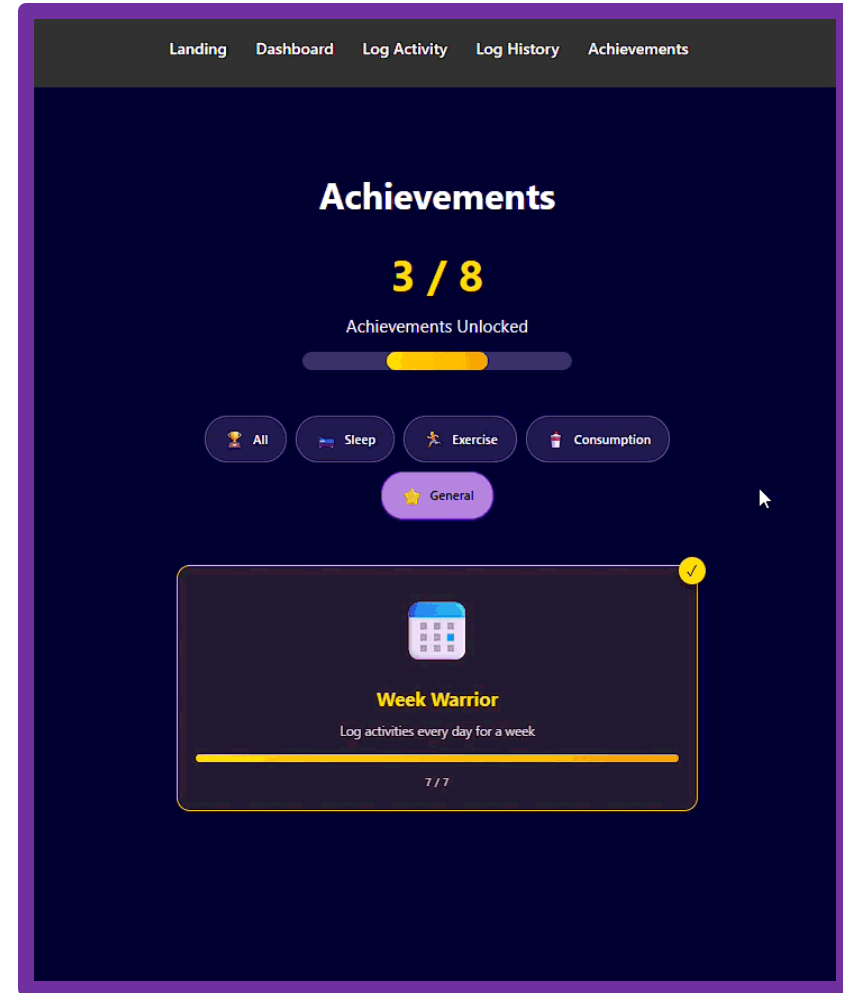

Solutions

- 1) Buttons for navigation and multiple ways to select and delete
- 2) Reformatted extracted data to read:
`2025-07-24T14:00:00.000Z`
- 3) Pagination = Cheaper at Scale
